This splendid Sea Side Watering Place, totaled at Beaufort Harbor, will be open TO THE WEST! TO THE WEST! low the advice of the "thousands who have already gone," it would be we'l to consider what has been done to make the journey to your 'Homes in the West" as pleasant and

free from danger as human skill and foreight can accomplish. By consolidation and construction, a road has been put into operation on the shortest possible line from Nashville, Tenn., to St. Louis, "the future great City of the world."

This line, the ST. LOUIS & SOUTHEASTERN RAIL WAY, has, during the past year, carned an envia ble reputation by its smooth track, prompt time, sure connections, and the magnificence of its passenger equipment. Its trains are made up of new and commodious

day cars, provided with the celebrated Miller coupler and platform, and the Westinghouse air-brake. It is possitively the only line running Pullman Palace Drawing-Boom Sleeping Cars through without change from Nashville to St. Louis. No other line pretends to offer such advantages, either in distance, time, or equipment. Why, then, journey

by circuitous routes? Do not be induced to purchase tickets to St. Louis or the West by any other line, remember that The "St. Louis & Southeastern" is the shortest, cheapest, quickest, best and only line under one management from Nashville to St. Louis, and is from 60 to 200 miles the shortest to St. Louis, Kansas City, Omaha, Denver, California, Texas,

and all western points. It is also the "Chicago Shortest Line," via Evansville. You can secure the cheapest rates for yourselves and your movables on application, in person or by letter, to CHARLES McCabs, Southern Passenger Agent, near College street Depot, Nashville, Tenn., or

WILMINGTON, N. C.

Thursday, October 2d, 1873.

In another column appears the call of Major Engelhard, President of the North Carolina Press Association, for the Committees to meet at Raleigh on Thursday of the State Fair week. We hope every member of the various committees mentioned will be on hand, that the work may be accomplished at that

THE terrible strains made by our Democratic brethren to turn even the miseries of mankind to their advantage, is well known. Advantage is taken of the slightest incident that can possibly be tortured into a slur upon the administration or the Republican party. We print herewith an illustration of this peculiar characteristic of our opponents. The Richmond Dispatch said:

Henry Clews, as an eminent financier, distrusted the practical qualities of Horace Greeley, and opposed his election to the Presidency on the ground that his election would bring upon the country a financial convulsion. It is a sharp comment upon the prophecy, keenly appreciated by "Poor Henry," that the convulsion was not avoided by the defeat of Greeley.

To which the Raleigh News adds:

Very true. It is known that many capitalists, who were professedly opposed to Radicalism, favored Grant's election because they were afraid of Mr. Greeley's financial views. They contended that the moneyed interests of the country demanded the re-election of President Grant. Well, Grant was elected, and what has been the result? The very consequences that the bond-holders feared might be brought about by a change of administration, have been realized in less than twelve months under the man of their choice.

An unforeseen and almost unaccountable panic sweeps over the land, not anticipated by the most intelligent financier in the country, and the President is blamed! Already the News has forgotten that the President relieved the strain by directing the purchase of the assets are abundantly sufficient to some fourteen million dollars worth of bonds, thus placing that amount of money at once in circulation among the people. The News does not remember that the President directs the interest falling due in November to be paid now to further relieve the pressure. The News does not seem to compreher id that this action was the salvation of the country, and that the ease in the market to-day is the result of b'is sagacity, and that while performing this immense good for the country, he saves \$750,000 a year in interest for the government; and even the New York Tribune admits that "the determination to anticipate the November interest is a step of a wiser nature, for which we give the President hearty thanks."

Now, has not the President done everything that the law permitted him to do, for the relief of the people? This, we think, the News will admit. Could Mr. Greeley have done more? It is well known by most intelligent men that Mr. · Greeley, while an honest, consciencious man, was a man of hobbies and impracticable isms. We shudder to think of the fate of this country had he been at the head of affairs at the late trying hour. Vacillating and impracticable, ruination, in our opinion, would have been the result. This is, of necessity, mere conjecture, but he showed this trait in his character so often during his lifetime, that it is but fair to refer to it | locking up of large sams of currency

It is utterly absurd to charge President Grant with being the cause of the panic, and any thinking man will agree | volume is needed for the moving of the with us. We are of the opinion that crops or other emergency, either spasthe News, instead of trying to make a modic or periodical, a prominent finan- at large within the limits prescribed by the little political capital out of the disas- cier of Washington has suggested that ter, should come right up like a little | Congress might authorize the issue of man and thank the President for his skill in finances, and his firmness in ing a specific mark, which should be refusing to further the schemes of speculators, who swarm about him as flies rers of the principal money centres, congregate about a grain of sugar, who with power to loan them upon Governwanted to turn his opinions into money. As in all other emergencies, President Grant has shown himself equal to it. and the country should thank him for his wisdom.

- An adjourned meeting of the Providence banks received and adopted the report of the committee recommending a liberal policy on the part of the banks toward each other and their customers: that each bank should request its depositors to draw checks payable through the clearing-house; that deposits made in the banks in currency be paid out to their early return. This suggestion apsuch depositors in currency, and that pears to be a plausible and feasible one, pears to be a plausible one, deposits made in certified checks be paid worthy the consideration of the finanin kind. cial and political minds of the country." | sept 1st

To the North Carolina Press. At the late meeting of the North Carolina Press Association at Goldsboro, Committees on LEGAL ADVER-TISEMENTS and on STATE AGRICULTU-RAL INTERESTS and IMMIGRATION were appointed to submit certain matters to D. the Legislature. In order that there may be consultation among the members of the Committees, those who compose them are hereby requested to meet at Raleigh, Thursday, October 16, 1873. The Committees are as follows:

On Legal Advertisements-J. D. Cameron, P. F. Duffy, and J. C. Mann. On State Agricultural Interests and Immigration-Sam'l T. Williams, Sam'l T. Carrow, and W. J. Yates.

In view of the further fact that it is proposed to hold a National Press Association in St. Louis, November 26th, 1873, and it may be deemed best for the North Carolina Press Association to be represented in that body, as well as to look after the interests of our own Association, the Executive Committee, composed as follows, Jordan Stone, Ho E. T. Manning, Geo. W. Nason, Jr., R. W. Furman and J. B. Hussy, are requested to meet at the same time.

The hour and place of meeting will be announced in the Raleigh papers on the morning of the day of meeting. JOSEPH A. ENGELHARD,

President N. C. Press Association.

EDITORIAL BUDGET.

- There have been a number of new cases of cholera on a ship which arrived at Liverpool Monday. The vessel has been placed in close quarantine.

- There were a number of accidents on the British railways Tuesday, and several persons were killed and injured. The most serious accident was to Scotch express train.

- The most responsible merchants of Memphis have subscribed and paid in \$32,000 to the First National bank, which will enable it to pay all its liabilities and resume business at once.

- The manufacturers of Harrisburg, Pa, have adopted a resolution approving the action of the banks in preventing a drain of currency, as conducive to their best interests, as well as of the public at large.

-The directors of the Union National Bank of Chicago, after paying out about \$200,000, have decided to go into liquidation. The officers state that pry all liabilities in full.

- The Bank of Commerce of Rich mond, Va., has been organized by Isaacs, Taylor and Williams, private bankers, who suspended last week. The full amount of capital has been subscribed, and the bank will commence business

- Thomas Hughes gave a lecture at Marlborough College Monday night on Admission to the Gallery 25 cents. Children 15 cents. America. He advised all who intended to emigrate to go to Canada or the United States. He spoke highly of the development of the British provinces in North America.

- The city council of Chicago have passed an ordinance authorizing the ssue in treasury scrip, with which to pay the current expenses of the city during the lock-up of currency. There is much difference of opinion among business men as to the expediency of

- In Charleston, S. C., Tuesday there | KEEPS CONSTANTLY ON HAND AN ex was an improved feeling in money circles. The national banks and the Union bank paid currency as usual, and deposits continue larger than the disbursements, and three-fourths of the cotton sales were for greenbacks instead of exclusively for exchange, as had been since the crisis.

- The Washington Republican publishes the following: "To prevent the for speculative purposes in the future. and to afford greater elasticity to the currency of the country when a greater one hundred million legal tenders, beardistributed among the assistant treasument bonds at eight per cent per annum interest. It is argued that a positive knowledge of this certain means of relief from a lock-up would operate as a sure preventive. Also, a scarcity of money for bringing forward crops would find temporary relief in the same manner. The pressure over the legal tenders would at once naturally return to the Government depository in order to stop the heavy interest, which being

Further Particulars of the Railfoad Accident,

TARBORO, N. C., Sept. 30.

Editor Evening Post: Dear Sir-I give to you the sad intelligence of a railroad accident this forenoon. Mr. Joseph Sellars, engineer, with a train load of timber, left the depot to go to the end of the Branch road. As the train reached the river the bridge gave way, precipitating the engine into the river, killing Mr. Gay the fireman, and severely injuring Mr. Sellars. I learn that the fireman leaves a wife and a large family of children to mourn their loss. Truly may it be said that "in the midst of life we are in death." Such affliction should find charity among the living.
